Sohel Rana

Adobe Commerce Architect

sohelrana09@gmail.com sohelrana.io LinkedIn GitHub Magento Stack Exchange

SUMMARY

17+ years with Magento, almost all of it remotely for teams in the US and New Zealand. 7 Adobe Commerce certifications and Zend Certified Engineer. Built Nopwara for nopCommerce and Forgeline for commercetools. I now bring AI into delivery, with AI-assisted development, code review and testing, and I'm prototyping MCP servers for agentic commerce. I'm a Claude Certified Architect – Foundations (Anthropic).

EXPERIENCE

Senior Full Stack Developer · IWD Agency — Aug 2026 to present
Full-time · Texas, United States · Remote

- Building and extending Adobe Commerce stores, from custom modules to checkout and catalogue features.
- Developing Hyvä themes and migrating storefronts to Hyvä for faster, lighter frontends.
- Integrating Adobe Commerce with ERP systems for products, stock, pricing and orders.
- Building Laravel applications and services that sit alongside the stores.
- Driving an AI-first delivery approach, with AI-assisted development, code review and testing built into the team's day-to-day work.
- Prototyping MCP servers that give AI agents read access to catalogue, cart and order data.

Technical Lead · eCommistry — Oct 2021 to Apr 2026
Christchurch and Wellington, New Zealand · Remote

- Architected and led delivery of Adobe Commerce Cloud builds for multi-brand, multi-region retailers.
- Designed and built B2B features including custom quote systems, company hierarchies and advanced pricing rules.
- Led ERP integrations with LS Retail, GreenTree, RetailExpress, SAP and Dynamics 365, using Boomi for real-time sync.
- Mentored and managed the development team and kept code quality in line with Adobe Commerce best practice.

Senior Magento Backend Developer · eCommistry — Feb 2017 to Oct 2021
New Zealand · Remote

- Magento 2 backend development.

Senior Magento Backend Developer · MageInferno — May 2015 to Nov 2016
Cleveland, OH, USA · Remote

- Built Magento 2 extensions including address verification, store locator, custom order numbers, canned responses, tracking import, quick order, affiliates and custom order management.

Senior Software Engineer (Zend PHP / Magento) · Mindmovies LLC — Jan 2011 to Jan 2017
USA · Remote

- Magento backend work on payment and shipping gateways, orders and invoices, and fulfilment system integrations.
- Built XML-RPC, REST and SOAP web services (server and client), a sales funnel system and a custom order process.
- Built Zend Framework 1 and 2 applications with jQuery, KnockoutJS and Bootstrap 3.

Software Engineer, Magento Developer · Greenland IT — Oct 2008 to Jun 2011
Dhaka, Bangladesh

- PHP and Magento backend development: payment and shipping gateways, orders and invoices, fulfilment integrations and web services.
